

Brake Upgrade Kit Specifications

Model: VP11 Commodore
Part no: PK15 - 16

The combination of all the benefits listed below lead to a significant reduction in stopping distance.

Features	Original Specification	Performance Specification	Benefits
Larger front rotors	Ø290 x 22 vented	Ø328 x 28 vented	Increased brake response Improved thermal performance
Larger rear rotors	Ø279 x 10.7 solid	Ø280 x 20 Vented	Increased brake response Improved thermal performance
Slotted rotors front and rear	No slots	Multiple straight slots per rotor	Increased pad bite Reduced brake fade
Larger front disc pads	Pad area 43.4cm ²	Pad area 57.6cm ²	Improved thermal performance
Performance friction material	Passenger car formulation	Performance rated formulation	Increased pad bite Reduced brake fade
Larger front calipers	Single piston caliper	Twin piston caliper	Increased brake response Reduced pedal travel
Performance brake hoses	Rubber brake hoses	Steel braided brake hoses	Increased brake response Reduced pedal travel
Improved caliper finish	As cast	High gloss Flame coating	More aggressive appearance
